ABOUT US

Poly Fibre® World is a brand of Khandelwal Fibres Pvt. Ltd. which was established in 2009. It is one of India's leading companies of core architecture product and landscape product, with formulation-expertise in resin-bolstering. We work to nurture the architectural excellence, by the way of providing a wide range of products, where each one of them encapsulates the motto of the company.

Poly Fibre empowered by the polymer resin, ensures sturdy strength, bonding, a higher degree of durability, weather resistance, and temperature resistance. The multipurpose use of Poly Fibre helps in making customized and innovative architectural products that uplift the aesthetic and grandeur of building and landscape

OUR PRODUCT

Gazebo, Pergola, Light Pole, Planter, Sculpture, Cladding, Cornice, Dome, Pillar, Jali, Tower, Moulding, Alphabet, Ball, Fencing, Louver, Feature Wall, Platform, Railing, Porta Cabin and Furniture etc. are available in a variety of sizes, designs, colors, textures, thicknesses and specifications which are exclusively manufactured and sold by us. Our manufacturing unit is fully independent in its functioning and operations which is our core strength. Latest technology machines and state of the art facility make it easy for the craftsmen to beautifully craft the products that are unique and idiosyncratic.

OUR EXPERIENCE

Our team of experts designers and engineers have attended numerous conferences, factory visits, seminars, and workshops held by renowned industry giants at several places like Hong Kong, Dubai, Singapore, China, Macau, Malaysia, Istanbul, Canada, Thailand and Muscat to adhere to the standard of excellence that Poly Fibre® World is known for. Such seminars are like a learning process for the designers and engineer to gain a better understanding of the emerging technologies in the field of design and architecture. Isophthalic, UV stabilized and fire retardant certified raw material from multinational companies are used, as required by the client. Each and every product manufactured at Poly Fibre® World ensures exactness and distinction.

CUSTOMER SATISFACTION

We work for 100% customer satisfaction. Customized designs provide a glimpse of our craftsmen's innovation and creativity, and every personalized design is tested to ensure sturdiness. Our products require easy installation and maintenance. Within 24 hours of the requirement, our team reaches at your doorstep to start the installation. Additionally, Poly Fibre is a non-porous, corrosion resistant and highly durable material, which is suitable for all types of architecture and landscapes with excellent weather tolerance.

We have a prestigious long list of client from India because of the versatility of our products and unique designs. The products are manufactured as per the client requirements due to which, Poly Fibre® World had the privilege of working with giant builders like TATA Housing, Godrej, DLF, Adani, Omaxe, IFFCO, Fortis, Chanakya Mall, Voltas and many more.

Poly Fibre® World is known for its elegance, innovative and personalized designs. Our main aim is to enhance the ambiance by the way of changing people's mindset about landscaping across India and the world

WHAT IS POLY FIBRE

- Poly Fibre is a amalgamation of polyester resin & fibre glass
- Poly Fibre Product is a very strong and flexible composite material, made up of a polymer matrix which is reinforced with Glass Fibre
- Due to a high strength to weight ratio, Poly Fibre is commonly used in the aeronautical, auto, marine and construction industries, as the alignment of the Glass Fibre of polymerized material can be suited to any design specifications
- To build landscape product like Gazebo and Pergola, using wood or cast iron is not an ideal option, because harsh weather conditions and rusting can considerably damage the products
- Making a Gazebo, Pergola or Jali with wood or metal base is a very strenuous as well as an expensive task. With advancements in technology - metal, wood, and plastic are being discarded and replaced with Poly Fibre for durability
- Outdoor products made with Poly Fibre are very tough, weather resistant and can withstand a lot of daily wear and tear
- With a lifespan of more then 25 years for Poly Fibre, outdoor products is becoming everyone's preference with excellent feedback from our customers
- We have some of the most advanced equipment in our manufacturing facilities to take care of the entire manufacturing process, from start to end, to deliver high-quality products.

SINCE 2009

Poly Fibre®
World

SCULPTURE

Poly Fibre® World is a prominent manufacturer of Poly Fibre sculpture for your premises. We are a one-stop solution for all the Fibre-Reinforced Plastic merchandise. After a series of quality checks, we deliver the products with an unmatched quality at a very competitive price.

Farm House, Vasant Kunj, New Delhi

CLADDING

A perfect model of hand-crafted Cladding & Moulding made with enthusiasm by superior craftsmanship can be seen at Jaipur, which was exclusively designed for Motisons Jewellers. It gives a perfect foundation to the glass petal elevations. The shapes and the cut are so accurate that they display a work of precision. The color combination further enhances the aesthetic of the design

TOWER

We manufacture and install very attractive Poly Fibre Towers, which can make any premises look like a palace. As seen in the picture, this beautifully designed tower is installed with a combination of Glass Fibre Reinforced Poly Fibre Moulding, Carving and Jali products, and it completely modifies the appearance of a simple building. The entire setup is constructed and installed by Poly Fibre® World.

The Royal Tree Banquet Hall, Hapur

CORNICE, MOULDING & JALI

A very distinctive and stylish work of art by Poly Fibre® World, which can be seen at MP's guest house, Janpath, New Delhi. The jali elevations gave a great space for the ventilation as well as give it a glorious look with superior strength. Additionally, the matching color soothes the aura. The designs can be modified according to the customer requirements.

Western Court, Janpath, New Delhi

PILLAR

A perfect blend of detailed engravings with an exemplary look is what defines the above piece of decorative furniture. The white color of the pillar symbolizes the purity and innocence. Earlier, such inscriptions were common with the royal palaces. But with our committed workforce, Poly Fibre® World provides customized pillars made up of Poly Fibre.

Masjid Al Fatima Edmonton, Canada

DOME

Poly Fibre is an excellent choice for outdoor Dome to relive our great Indian culture. It takes a lot of time, effort and artistic work to do such detailed inscriptions on the structure, which is made up of Poly Fibre. Such antique engravings help to bind us with our intellectual side. The Domes can be installed in a lawn, terrace, park or any outdoor area

Masjid Al Fatima Edmonton, Canada

LAMP POST

A product meant to display a taste of elegance. A dark-colored Lamp Post, made with Poly Fibre is a product with long-lasting features to enrich your property. By installing a pair of these light posts at your entrance or doorstep, a lavish impression is created at the first sight for everyone. It is resistant to rusting and can withstand high-wind pressure

FURNITURE

Our exclusive range of customized furniture items enables our customers to choose from a large variety of Poly Fibre products.

This one of a kind Poly Fibre sofa set (with table) is an exclusive product of Poly Fibre® World. It is highly durable with a lifespan of over 25 years and serves both indoor and outdoor needs.

FARM HOUSE, VASNTKUNJ, NEW DELHI
1/2/3 Seater Sofa, Center Table, Bar Counter

SINCE 2009

Poly Fibre®
World

Another unique design by Poly Fibre® World, this sofa set can be used with or without cushions. With its gorgeous teakwood appearance, this Poly Fibre constructed set adds a regal touch to your premises to please the visitors.

Punjabi Bagh, new Delhi
1/2/3 Seater Sofa, Center Table, Bar Counter

2 SEATER SOFA

ALPHABET

Poly Fibre® World has installed a giant structure at the entrance of the Shri Radha Sky Garden in Noida Extension. It is perfectly molded to give a proper shape and excellently crafted for perfection. The light pale color of the structure gives a calm and relaxing aura to the people. It brings a lot of positive energy as well as attracts the attention of the onlookers. The height is 10 feet for these stone finish 'Alphabets' products and the words appear very big from far. It can sustain heavy wind pressures due to its heavy steel plate

Shri Radha Sky Garden, Noida Extension

BALL

This structure has a circular ball of single piece with 8 feet diameter, which is placed with crane at the top of a structure, and it can be seen from far as it enhances a park's beauty. The ball is made up of Poly Fibre, which is a non-porous, corrosion-proof and weather resistant material. The crossing is famous amongst the people because of this innovative structure.

Barnala, Punjab

BOUNDARY WALL FENCING

Boundary wall fencing at Panchsheel Enclave in New Delhi gives a very attractive look to the house. Such an elegant design of the wooden-look railings goes well with the pattern of the wall, giving it a distinctive look. The fencing is made up of Poly Fibre, making it to withstand extreme weather conditions. It is a perfect blend of contemporary and traditional design to give a classy look to any modern villa.

Panchsheel Enclave, New Delhi

LOUVER

An excellent pattern of louvers can be seen at IFFCO Aonla, near the city of Bareilly. Louvers are made using Poly Fibre as a base material to ensure fresh flow of air. In order to promote a greener lifestyle, industrial louvers provide a lot more benefits for a high-functioning clean airflow system. The manufacturing and installation demand a high level of perfection and accuracy, which is completely done by us.

Industrial Louver, IFFCO, Aonla

The Z-shaped louvers allow unrestricted view while maintaining fresh and ventilated air. Poly Fibre is used as a base material to manufacture these beautiful boundary louvers. These are used as a sustainable alternative to cut down the heating and cooling costs and are an effective system in controlling the airflow. The symmetric design ensures uniformity and sturdiness. Poly Fibre, empowered by the glass polyester resin, ensures strength, bonding, a higher degree of durability and weather resistance. It can also be used as boundary wall fencing to hide the interiors. as boundary wall fencing to hide the interiors

**Boundary Louver, Radisson Hotel,
Paschim Vihar, New Delhi**

Commercial louvers look great but they may not be able to last long, when it comes to durability and efficiency. But at Poly Fibre® World, we provide durability for each and every product. We have designed a customized louver for ventilation inside Ajnara Daffodil premises. The black and white combination louver appeals to a large number of people. It requires very low maintenance because of Glass Fibre Reinforced Polymer.

Ventilation Louver, Daffodil, Ajnara, Noida

FEATURE WALL

A beautiful hand-crafted leafy-structure design exclusively made by us to beautify the passages or walls of a house or any premises. The perfect molding technique gives it a perfect shape of leaves. Moreover, it can be placed anywhere for decor and can also be used in a terrace or garden to amplify the beauty of the space. Poly Fibre is used as a base material for extra core strength. It can also be decorated with lights during the night-time for a 'wow' factor.

Acetech Exhibition, New Delhi

PILLAR & JALI

A very pleasing combination of planters, pillar and jali can be seen at Stardom Banquet in Noida. The use of this alluring structure can transform any event into a memorable and lavish occasion. Poly Fibre is used as a base material to make pillars and jali. Poly Fibre ensures strength and high level of durability. Beautifully lightings with stylish jali and pillars give the banquet a Royal look

Stardom Banquet, Noida

PLATFORM

This jali structured pavilion platform is so strong that it can with stand considerable weight. The symmetric pavilion gives a traditional look, as these kinds of structures are regularly being used by the houses for ventilation purposes. The Pavillion is made of Poly Fibre material to give it a strong base. The pavilion can be customized or modified according to the customers' needs.

Pavillion Court, Jaypee Wishtown, Noida

RAILING

This beautiful railing has the potential to make a stunning boundary wall of a farmhouse or a swimming pool. The conventional design and the pointed end at the top of the railing give it a decent look. White color symbolizes peace, purity, and elegance, making it a comfortable environment to relax. Using Poly Fibre, Poly Fibre® World manufactures customized railings as per the demand, to fulfill our motto of 100% customer satisfaction.

Farmhouse, Ghaziabad

SINCE 2009

Poly Fibre®
World

PORTA CABIN

Poly Fibre® World provide portable cabins, using Glass Fibre Reinforced Polymer as a base material. Being portable as the name suggests, the structure is movable and quick for installations without compromising its strength. They are portable and can be customized according to customers' requests. Light colors are preferred for portable cabins to experience a relaxing and peaceful time. It can be used as a guard's room, toilet, changing room, or a shower cubicle for a swimming pool.

Gateway, Tata Housing, Gurugram

BUILDING ELEVATION

An impressive project by Poly Fibre® World, which can be seen at Sanskar Jyoti School, Gurugram. The school's structure is known for its distinctive and royal look due to our designers' excellent efforts. Perfect canopy and pillar jobs enhance its appearance. The window canopy and pillars are also made of Poly Fibre, installed at heights ranging from 10-30 feet for this glamorous building

Sanskar Jyoti School, Gurugram

BUILDING ELEVATION

An example of a highly challenging job, with the height of 120 feet, this is only building of its kind in Asia. It is an exceptionally creative project which can be seen at Jaipur, exclusively made for Motisons Jewellers by us. The colorful petals attract the eyes of the people due to a mesmerizing sight.

Motisons Jewellers, Jaipur

An eye-catching creativity of Poly Fibre® World, this structure completed with 30-feet pillars and jali can be seen at Panchsheel Enclave, New Delhi. The combo of pillars and elevations mark a perfect space for ventilation. Using Poly Fibre as a base material, we manufacture best quality customized products to provide a long-lasting pleasurable experience for the customers.

Panchsheel Enclave, New Delhi

The glimpse of our elegant work can also be seen at The Royal Tree Banquet Hall, Hapur. The detailed engravings give the structure a royal and decent look. The jali ventilation further enhances the aesthetics of the building by adding a traditional touch to it. Moreover, the white color symbolizes elegance itself. For this project, we used pillars, jali, canopy, cornice, tower and moulding, all made with Glass Fibre Reinforced Polymer.

The Royal Tree Banquet Hall, Hapur

A government project by CPWD, this department is the finest work of art by Poly Fibre® World, which can be seen at Western Court, Janpath, New Delhi. The jali elevations gave a great space for the ventilation as well as give it a glorious look with superior strength. Additionally, the matching color soothes the aura. The design is finished by using jali, cornice and moulding, made with Glass Fibre Reinforced Polymer.

Western Court, Janpath, New Delhi

GUARD ROOM

It is an attractive supplementary structure that can be utilized as guard rooms, outdoor toilets, kiosks, or any ad-hoc requirements for commercial or outdoor use. These prefabricated portable cabins can easily be shifted from one place to another without any problems and require

**PARK - KALI BARI MARG, NEW DELHI NDMC
(NEW DELHI MUNICIPAL CORPORATION)**

FRP JALIS

Polyfibre Jalis are used for an artistically unique exterior and interior decor as Entrance Gates, Arches, Partitions, Railings, wall segments, fencing and almost everywhere. These are light weight, stronger, durable & tougher to resist external weather conditions without losing their beauty.
