Exterior & Interior Décor for Cottage Landscape

**Majestic Pergolas | Eclectic Gazebos | Heritage Sculptures | Artistic Jalis
Eco-friendly Planters**

Hassle-free & Expeditious

Processes from Designing to Assemblage

Site Visit

1st step is consultation & understanding your requirements. We visit your site, check the land for a better design view & take measurements. It's then followed by design discussions.

Topography Analysis

For plain sites, we assemble the cottage/caboose with no construction required. If your site is on a sandy or uneven topography, like in a desert, it requires an RCC foundation. The landscape décor products are planned as per the size of the concrete base.

Planning

Our design team suggests a blueprint based on your choice of a comprehensive concept package or a flexible one. Also, we discuss the design theme options for the premium Gazebos & Pergolas.

Execution

We proceed with manufacturing the Poly Fibre Cottage, exclusive Pergola & Gazebo, & decor units. The iconic landscape décor gets ready after a series of refined detailing from molding, casting, joining, machining and formulation.

Delivery & Base Setup

We deliver your landscape products at an express speed. Our team readies the base with the levelling system for solid land & RCC base construction (only for sandy land) with precast foundation.

Assemblage

Once the framework arrives at your site, within 1 Day, our experts assemble the ready-to-move-in structure by connecting its posts, piers, and panels in minutes. We commit prompt after-sales services.

Higher Strength & Weather Resistance

Poly Fibre over Pre Feb / Wooden / Iron / Concrete

What is Poly Fibre?

Poly Fibre Polymer Product is a strong and flexible composite material made up of polymer matrix, which is, in turn, made with fiberglass. Our uniquely designed Premium Cottage, Caboose, Gazebos, Pergolas & Landscape décor have -

Outstanding Attributes

- For exterior landscape decor, wood or cast iron is not an ideal choice. They won't sustain harsh weather conditions, and rusting can damage them easily.
- With a higher strength-to-weight ratio, the alignment of polymerized materials suits any design specifications. They are the highly preferred material in the aeronautical, auto, marine, and construction industries.
- Designing intricate artworks with wood or metal base is strenuous and expensive. Poly Fibre is the most flexible & innovative material comparatively.
- Outdoor products made with Poly Fibre Polymer are weather resistant and can withstand daily wear and tear.
- With over 25+ years of lifespan, the Poly Fibre Premium Landscapes are becoming everyone's first choice with positive feedback & reviews.
- Our state-of-the-art techniques & equipment help design & manufacture the premium quality Poly Fibre décor for you.

Pan India Presence of Poly Fibre World

Poly Fibre U/s Other Material

	Poly Fibre	Pre Feb / Wooden / Iron / Concrete
Termite, Rusting, Rotting, Mousture.	No effect.	Wooden structures are susceptible to termites in the exteriors. The iron units are prone to get rust and moisture with lesser durability. Cement landscape products are not mobile & require a lot of time & cost in construction.
Earthquake Resistance	Yes	Yes
Fire Retardant	Yes with minimum risk.	Prone to fire hazards.
Weather Durability	All weather proof.	Different materials behave differently under harsh weather conditions.
Uses	Multiple-themed products for Resorts, Farmhouses, Holiday Homes, Camping Sites, Outlet Kiosks, Residential Villas, Terrace Rooms, Conference Room, Offices, etc.	Majorly used for Residential purposes.
Production & Assembly	Ready-to-move-in, Just Assemble in 1 day products with 3 simple steps processes; Select - Deliver - Assemble.	Minimum 2-3 months waiting period from Production till Execution.
Weight	Sturdy yet lighter than a conventional house.	Heavy weight products.
Maintenance	No maintenance required apart from soap & water cleaning once in a week or month.	Chemicals, Paints, etc., are required for yearly maintenance.
Cost Effective	Very economical with in-house manufacturing, 1 day assembly, & minimum manpower requisites.	Outsourced production and huge on-site work increase costs & labor requirements.
Moveable	Very easy to relocate.	Fixed.
Royalty	For your sites rewarding appreciation, it's easy to shift the complete setup to that location.	No such flexibility.
Transportation	Easy to transport across the globe (Like Hills, Sea side or any other places).	Huge costs involved due to multiple raw materials (Brick, Sand, Stone, Wood, etc.)
Construction	Requires no construction hassle. Only for sites with an uneven topography, a RCC platform construction is the bare minimum requirement.	No installation without construction.
Leakage	Completely leak-proof units.	Prone to leakage.
Warranty & Lifespan	25 Years of warranty* & 50 years* of lifespan	Comparatively lesser warranty & lifespans.
New Concept	Most advanced technology of the 21st century based on the fastest and easiest modular units.	Traditional products.
Packing	Nicely and securely packed in bubble wraps for transportation from factory/ warehouses to your site.	May or may not have sturdy packagings.
Pollution	No usage of brick and no construction work.	On-site construction & installation leads to environmental pollution.
Interiors and exteriors	Factory-made interiors with wood and stone finish.	Comparatively less appealing.

Chart may be differ in other manners so no challenge.

Poly Fibre World over other manufacturers

Services and Qualities	Poly Fibre World - Manufacturer	Other Manufacturers
In-house Manufacturer	100% Indian make, Fully Independent manufacturing unit for landscape products.	Import parts and materials of landscape products to vendors.
Payment terms	No advance required, direct shop from our experience center/warehouse.	75% - 100% advance.
Assembly and Execution	Our Gazebos & Pergolas are ready-to-assemble in a few hours. Cottages & Modular Rooms are just assembled in 1 day.	3-4 months longer time from Production till Execution.
One-Stop Solution	We Provide complete concept and inhouse production that includes Gazebos, Pergolas, Cottages, Modular Rooms, Plunge Pool, Sculptures, Fencing, Jalis, Lamp Posts, Washroom,, Pillars, Planters, Furniture, etc.	Outsource multiple products.
Financial Ease	Due to Just Assemble, ready stock, your money gets its return value immediately.	Funds get locked for a longer period due to 5-6 months production time before Delivery/ Assemblage.
Varities of Range	A wide range of molds, products and designs.	Very limited options.
Maintenance	No Maintenance required apart from soap & water cleaning once in a week or month.	Chemicals, Paints, etc., are required for yearly maintenance.
Warranty	25 Years.	5-10 Years.
Life Span	50 Years.	20-30 Years.
Site Images	We share all real images from client site along with location name & relevant details.	Share limited 3D images.
Ready Stock	50+ Gazebos & Pergolas, Cottages available all the time in our Indoor and outdoor experience centers/ warehouses.	Ready stock not available.
Site Visit	No hard & fast requirement.	Mandatory - as it is a on site long process.
Manpower & heavy equipments	Minimum manpower (2-3) & no major equipments are required.	More labor requirement. Due to onsite fabrication, there is dependency on heavy machinery.
Monetary Benefits	Quick assemble in just 1 day with immediate royalty rewards.	Generate revenue after 4-6 months of long installation process.
Weather	No problem at all as its based on "Just Assemble" for one day installation.	Weather condition may impact the entire onsite work.
Pandemic effect	No contact of workers required with land owners during the assmeblage process. Ready for future pandemic situations as well.	Increased risk of virus spread with more number of man-power & frequent contact with land owners during the laborious installation process. Uncertainty on manufacturing & delivery in future pandemic situations.
Relocation	Can relocate the entire cottage with bare minimum manpower and zero depreciation cost.	Not possible easily. Requires a lot of manpower with no assurance of zero depreciation cost.
Embrose Option	Yes - We can customize the Resort name or Client name Embrosed on all products.	No such flexibility.
Presence	Across Pan India	Comparatively lesser presence.
Experience	Worked with multiple big brands like Tata, Godrej, Adani, DLF for different landscape products.	Comparatively lesser work experience.
Export	We meet the US/CANADA quality standards. Our products are exported to Canada too.	May or may not have export quality.
Strength	We employ high quality MNC raw materials with all test certificates.	May or may not have MNC raw materials.
Technical	We use steel Reinforced Engineered Structure.	May or may not provide engineered structure.
Smart Landscape Govt. Projects	Smart city, Govt. approved projects with different state Governments, Departments, & Indian Army sanctions.	No such flexibility.
All In-house	From Designing, Mold, Manufacturing, Finishing, Packaging, & Installation; our processes are in-house completely.	No such advantages.
Customization	Flexibility of customization of Color, Design, Finish, Size, Shape, & Texture.	May or may not have customization flexibility.
